About me

My goal as a developer is to make a positive impact on the world, by contributing to the growth of the company I work for and the well-being of its users through innovative and challenging solutions. I seek to continuously learn and collaborate with a dynamic team to achieve this. I am passionate about finding innovative solutions to complex problems and committed to giving my best to make it happen.

Skills

- Typescript Javascript
- Reactjs, Nextjs, ExpressJs
- Python
- Golang - Mux, GORM (basic)
- SQL and NoSQL databases.
- Clean architecture - DDD.
- CI/CD GitLab.
- Docker and Kubernetes.
- Rest API, GraphQL and Websockets.
- AWS EC2.

Experience

SOFTWARE DEVELOPER | E-CRUCE

January 2022 - Present

- Maintain and develop projects using programming languages **TypeScript**, **JavaScript**, **Go**, and **Python**.
- Use frameworks such as **ExpressJS**, **NextJS**, **ReactJS**, and **Mux** to build robust and scalable applications.
- Implement **tests** to ensure code quality and prevent technical issues.
- Maintain and update existing applications to ensure **high performance** and availability.
- Collaborate with **cross-functional teams** to identify and solve product issues.
- Participate in code reviews and ensure adherence to **coding best practices**.
- Keep up-to-date with emerging trends and technologies in software development and suggest for future developments.

TUTOR | CODERHOUSE

July 2022 - December 2022

- **tutoring group classes** for students in **JavaScript** centered programming courses.
- Provide **support** and **guidance** to students, including answering questions and providing proofreading of their work.
